LETTER OF RECOMMENDATION

2/12/15

From: Roger McCoy, Executive Vice President of Construction, Cottage Builders, Inc.

Re: VICA

To Whom It May Concern:

I am pleased to recommend you the HVAC services provided to my company by VICA Heating & AC.

Cottage Builders, Inc. is a national general contractor that constructs student housing for Capstone Collegiate Communities, one of the most prominent student housing developers in the United States.

For the Capstone/Cottage project in Albuquerque, New Mexico, VICA performed exceptionally, installing heating and cooling systems for 162 units within the required schedule. The quality was superb.

Based on my experience with VICA Heating & AC, I would definitely use their company again.

Sincerely,

Roger McCoy
