To Whom It May Concern:

I have had the pleasure of working with members of the VICA Heating and Air Conditioning family since 1996 and have always experienced true professionalism and a sincere dedication to meeting the highest standards of job performance. As a distributor of heating and cooling equipment, we must place trust in our contractors that they will skillfully represent our brands to their customers while maintaining our strictest standards, install according to code and manufacturer recommendations, and provide after the sale service. VICA has continually exceeded our requirements and has gone above and beyond in the areas of sales and technical training, brand loyalty, and warranty follow through. Through the boom times and currently in more difficult economic conditions, it has always been of utmost importance to the management of VICA to keep their supplier accounts current. They are a well organized and managed organization and take pride in a job well done.

Be it a residential home or multifamily project, or a small to large commercial project, I am confident that Vic, Andrew, and John, and the VICA Heating and Air Conditioning crew, will exceed your expectations and provide you with high quality results and craftsmanship. Look no further.

Sincerely,

Gino Griego
